

Cost-effective solution that provides high bandwidth and transmission rates over longer distances. With SC to SC termination, this high quality fiber optic patch cable is specifically designed for gigabit ethernet applications. The patented injection molding process provides each connection greater durability in resisting pulls, strains and impacts from cabling installs.

Each cable is 100% optically inspected and tested for insertion loss before you receive it. A pull-proof jacket design surrounds the popular 9/125 Single-mode fiber, immune to electrical interference.

Features & Benefits

Fast data transfer rates over long distances
 Available in lengths up to 30m

Designed for SC-SC gigabit ethernet applications
